Shred-Its' trucks contain cutting-edge proprietary paper shredding technology that can handle the job. They utilize a crosscut shredding process, reducing materials to fine pieces of confetti. Paper sorting or separation is not necessary – paper can be recycled with staples, paper clips and binder clips. These events give individuals the opportunity to have their confidential documents destroyed on site, while they wait.

Paper is bailed locally, shipped and refined into Kirkland Paper products (paper towels, napkin, etc.) sold at Costco.
